

Risk assessment and Management 2024
Tree Climbing
Description.

There are many sub-sports within climbing. Here we are looking at Tree Climbing on artificial holds strapped to a tree.

Managing Risk Statement.

Supervisors will hold the appropriate qualification for this activity (see [Minimum Qualifications document](#)). The quality and safety of sessions will be regularly reviewed with any outcomes being fed into the RA and policies. Inherent within this activity is the possibility of getting wet, tired and exposed to ambient weather conditions (see [Weather Policy](#))

Benefits.

Adventure Activities provide a range of benefits (see [Education and Learning policy](#))

The Hazard, what is causing a risk?	Who might be affected	How we manage the risk
Personal Injury <ul style="list-style-type: none"> • Jewellery being worn. • Climbing without shoes. • Rope burn – belayer • Rope burn – climber • Finger injuries 	Instructors & All Participants/Group Leaders	<p>Jewellery that poses a risk must be removed or covered with tape.</p> <p>Belaying will be monitored throughout the session particularly on direction change (climb to lower). In control at all times.</p> <p>Climbers coached in correct position for lowers – not holding rope from belayer to top anchor, not jumping etc</p>
Falls from height <ul style="list-style-type: none"> • Incorrect harness fitting • Incorrect belaying 		<p>Instructor to physically check all aspects of the safety chain before each climb – once participants are able to buddy check</p>

Risk assessment conducted by: E3Adventures Ltd

Date Conducted: 1/2/2024

Signed: Bryn Beach

Review Date: Jan 2025

An E3Adventures Ltd director will review and update this document yearly AND following any near miss or incident, or should circumstances demand it.

		<p>correctly (multiple sessions) then the instructor is to monitor this check.</p> <p>Instruction on safe and appropriate belaying technique to be provided - instructor to monitor.</p> <p>Instructors to work within qualification remit.</p>
<p>Stuck climber</p> <ul style="list-style-type: none"> • Climber on a branch refusing to descend • Climber unable to go up / down – leg / arm caught on or in a feature. 		<p>Route choice – choose routes that are suitable for the group. Not likely in an indoor setting!</p>
<p>Falling / dead branches</p> <ul style="list-style-type: none"> • Loose or dead branches. 		<p>Visual and physical inspection during set up</p> <p>Instructor to climb (being belayed) to physically check climb</p>
Specific assessments		

Operating Procedures

Before

- Check medical / consent forms.
- Instructor to be familiar with E3Adventures activity RA – specifically any site specific notes.
- Check the weather forecast – does your plan still work.
- Check if there any venue restrictions (bird ban / road closures / rockfall)
- Instructor to ensure correct kit is available for the venue / group.
- Instructor to inspect all kit to ensure it is usable.
- If residential course ensure the group know where to go / park etc.

During

Risk assessment conducted by: E3Adventures Ltd	Date Conducted: 1/2/2024
Signed: Bryn Beach	Review Date: Jan 2025
An E3Adventures Ltd director will review and update this document yearly AND following any near miss or incident, or should circumstances demand it.	

- Clear briefing to highlight risks, safety measures and expectations.
- Any assistants / staff to be briefed on their role.
- Session delivered within instructors NGB remit / inhouse training / experience and accounting for the weather / group ability.

After

- Return kit.
- Inform E3 of any damages or loss.
- Inform course leader of any issues with group / venue to assist with planning for future.
