

## Risk assessment and Management 2026

## Gorge walking

**Description.**

**Gorge walking / Ghyll scrambling / Canyoning.** Travelling up / down / through 'gorges' using a variety of techniques such roped scrambling, climbing, swimming, abseils and lowers.

**Managing Risk Statement.** Supervisors will hold the appropriate qualification for this activity (see [Minimum Qualifications document](#)). The quality and safety of sessions will be regularly reviewed with any outcomes being fed into the RA and policies. Inherent within this activity is the possibility of getting wet, tired and exposed to ambient weather conditions( see [Weather Policy](#))

**Benefits.** Adventure Activities provide a range of benefits (see [Education and Learning policy](#))

| The Hazard, what is causing a risk?                                      | Who might be affected          | How we manage the risk                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------------------------------|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal Injury</b><br><br>Slips<br><br><br><br><br><br><br><br>Falls | Instructors & All Participants | Briefing at start to highlight slippery rocks. Loose rocks. Slippery wood etc. any specific items highlighted on route.<br><br>Helmets worn<br><br>Suitable footwear worn - assessed prior to start<br><br>Steps / climbs to be managed appropriately. Spotting if able, ropes if more consequential or spotting not possible |
| <b>Fatigue</b>                                                           | Instructors & All Participants | Wetsuits worn if it's a 'wet' gorge. Keeping warm will help with energy levels.<br><br>Exit points known by instructor so there are option if required to exit early.                                                                                                                                                         |

### Operating Procedures

#### Before

- Check medical / consent forms.
- Instructor to be familiar with E3Adventures activity RA – specifically any site specific notes.
- Check the weather forecast – does your plan still work.
- Check if there any venue restrictions (bird ban / road closures / rockfall)
- Instructor to ensure correct kit is available for the venue / group.
- Instructor to inspect all kit to ensure it is usable.
- If residential course ensure the group know where to go / park etc.

#### During

- Clear briefing to highlight risks, safety measures and expectations.
- Any assistants / staff to briefed on their role.
- Session delivered within instructors NGB remit / inhouse training / experience and accounting for the weather / group ability.

#### After

- Return kit.
- Inform E3 of any damages or loss.
- Inform course leader of any issues with group / venue to assist with planning for future.

## Instructor Incapacitated

## Critical Incident Plan

Ensure that the teacher/visiting staff knows where your copy of the 'Instructor Incapacitated' and 'Critical Incident Plan' are.

### E3ADVENTURES.COM

#### INSTRUCTOR INCAPACITATED

In the case of a incident / accident the E3Adventures staff will follow the 'critical incident plan' ( see over). However in the situation where they are incapacitated this crib sheet will help you manage the situation until help arrives.

#### Group Safety

- **Look after yourself**, do not put yourself in danger.
- **Look after the group**, make sure they are out of danger. In this scenario the group may be worried, you might need to tell them where to go/sit and not move so they do not put themselves in danger.
- If necessary **move the casualty** out of any further danger.

#### First Aid

- Perform **first aid** ( do what you can )
  - If it is bleeding - stop it bleeding ( direct pressure)
  - If it is broken - don't move it
  - If they are unconscious - put them in the safe airway position ( below)
  - If they are not breathing and you feel you can start CPR

#### Call for Help

- You can Phone **999 /112** using your phone or the instructors phone
- If there are other groups near by you can **shout for help**
- You can contact other staff via the **WhatsApp group**

- **Location**
- **What Happened / Who is hurt / what has been done**
- **The group**

#### CRITICAL INCIDENT PLAN

The below 'Critical Incident' plan gives useful process to follow in the case of a critical incident. However any incident is likely to have its own unique features and it will be up to the E3Adventures staff with the support of the Group staff to manage an incident in the way that produces the best outcomes.
